Bachelor of Science
NURSING

HOME OF THE *WARRIORS*

WHY TAMUCT

The Nursing program is user-friendly and recognizes the demands of students balancing work with school, and can be completed in one calendar year. It is 100% online and offers opportunities for part-time or full-time study. Although the program is online, students still have the opportunity to come to campus to meet with faculty as needed. Our classes are capped at 20 students to allow for more faculty-student interactions.

PROGRAM LEVEL STUDENT LEARNING OUTCOMES

- » Examine professional nursing from a historical and contemporary perspectives, including the philosophy and theoretical foundations that define nursing practice.
- » Collect and evaluate evidence-based practice findings to improve nursing practice.
- » Develop the skills to complete a comprehensive health assessment of an individual of any age.
- » Understand the pathophysiological basis for disease processes in adults and children.
- » Identify the use of nursing informatics from multiple perspectives within nursing practice.
- » Apply research for critical thinking in case management, integration of pathophysiology, psychosocial, cultural and professional values.
- » Analyze a real work problem and develop a proposed solution using the concepts of leadership and management.
- » Define personal, professional and cultural values as influences upon nursing practice.
- » Develop learning objectives for a knowledge-based nursing intervention to maintain, restore, and promote health of individuals and families.
- » Integrate assessment, data analysis, therapeutic communication, and critical thinking skills to direct sensitive care of older adults.
- » Assess the environment of care and the needs of vulnerable populations in community settings.
- » Identify means by which professional nurses affect quality of health care delivery based on political, legal, ethical, and policy issues.

THE REGISTERED NURSE

(RN) to Bachelor of Science in Nursing (BSN) program at Texas A&M University-Central Texas offers a nursing education to registered nurses on the baccalaureate level, in order to serve the regional community of Central Texas, including the military and their families. Our faculty will prepare you to practice in all healthcare settings, including outpatient care, hospital settings, public health and gerontology. The BSN will give you greater opportunity for career and educational mobility.

OUR PROGRAM

is streamlined and avoids duplication of courses as well as content completed by students with an associates degree in nursing. The BSN program is based on The Essentials of Baccalaureate Education for Professional Nursing Practice (American Association of Colleges of Nursing, 2008) to ensure program quality.

For a complete list of nursing programs, visit:
